Bell & Howell DIRECTOR SERIES ...MOST ADVANCED ELECTRIC EYE 8mm TURRET CAMERAS!

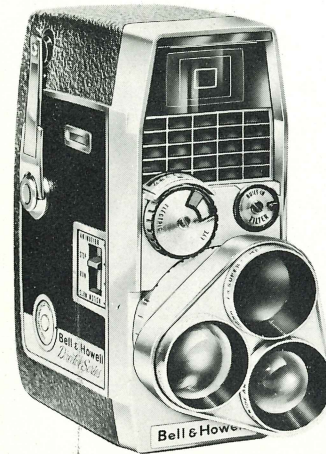

LOOK THROUGH THE AMAZING VIEWFINDER PERISCOPE...

Raise the precision Director Series Turret Electric Eye camera to your eye, and you see all camera settings in the exclusive Viewfinder Periscope. Now a quick twist of the turret and you switch smoothly and swiftly from the fast, normal 10mm f/1.8 lens to the long telephoto for close-ups, or to the wide angle for big-view scenes. Without taking the camera from your eye, press down the 3-way starting button. Switch instantly and automatically from 16 to 48 fps. Capture the slow motion sequence automatically without stopping the camera . . . without making an adjustment.

**DIRECTOR
SERIES**

420

3-lens turret model with 3 second magazine loading. Tell-Tale Signal shows proper magazine operation.

3-LENS TURRET. All 3 critically sharp f/1.8 lenses are built into precision quick-turn turret.

EXCLUSIVE VIEWFINDER PERISCOPE. Data center in viewfinder shows all camera settings at a glance.

ELECTRIC EYE EXPOSURE CONTROL. Even if light changes as you shoot, the Electric Eye sets all 3 lenses . . . automatically.

AUTOMATIC FINGERTIP SLOW MOTION. Switch instantly from normal speed to slow motion and back again while shooting.

EXCLUSIVE RESERVE POWER INDICATOR Easy crank-wind for longest 8mm film runs. Reserve Power Indicator shows when to wind.

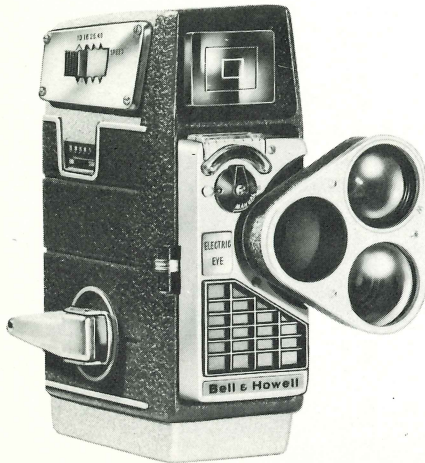

PLUS MANY VERSATILE FEATURES. 3-Way Starting Button. Built-in Type A Filter. Exposure Beacon. Film Speed (ASA 10 to 40) Dial.

**DIRECTOR
SERIES**

410

3-lens turret model with fast drop-in spool loading and automatic footage counter.

Bell & Howell *Perpetua* ELECTRIC EYE

FILM SPEED SELECTOR

Ready now for faster films of the future. Settings for color films, ASA 10 to 40.

3-WAY STARTING BUTTON

Locks so you can get into the picture. Single-frame shots, too.

LONG 10-FT. FILM RUN

Shoot over 6 average-length scenes each fast winding. Use economical 50-ft. roll film.

PICTURE WINDOW VIEWFINDER

Sight fast—no squinting. Signals if light's too dim for perfect movies.

BUILT-IN FILTER FOR 3 LENSES

Normal, wide-angle, or telephoto shots. Type A filter—use indoor film outdoors.

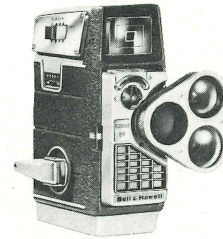

PERPETUA ELECTRIC EYE

Measures light and sets the lens automatically—even as you shoot.

CAMERA ...SHOOT MOVIES AUTOMATICALLY!

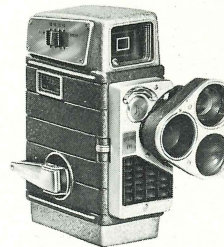

ELECTRIC EYE SETS LENS FOR YOU—CONTINUOUSLY!

No need to stop shooting to make a lens adjustment in the middle of a once-in-a-lifetime scene. The Perpetua Electric Eye keeps the lens set perfectly at all times—even if you pan from bright to shady areas, or if a cloud passes over head as you shoot. Only a full-time Electric Eye, like this, assures that every foot of film will be properly exposed.

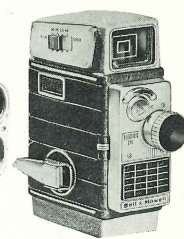

PERPETUA 393E

Fast 10mm f/1.8 lens; 2½X telephoto and 6.5mm wide-angle lenses on Safeguard turret. Totally automatic and manual control.

PERPETUA 390TE

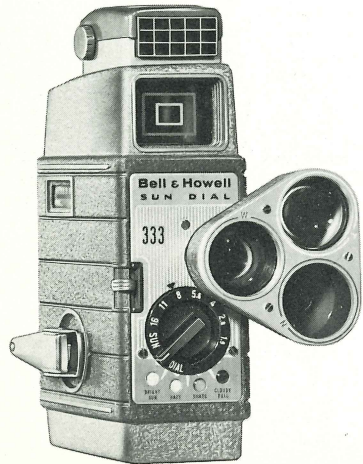

Totally automatic 3-lens Safeguard turret model. With 10mm f/2.3 prime lens; 6.5mm wide-angle and 25mm telephoto auxiliary lenses.

PERPETUA 390E

Totally automatic single-lens model. 10mm f/2.3 lens—56% more picture coverage. Without built-in filter.

FAMOUS Bell & Howell SUNOMETER CAMERAS

SUNOMETER

Simple Sunometer exposure indicator measures light for you, points out exact Sun Dial setting.

FAST 10mm LENS

56% more picture coverage. Turn turret for wide-angle or telephoto shots.

SUN DIAL

Just set dial to match Sunometer reading. Exact exposures, every time.

AUTOMATIC FOOTAGE COUNTER

Shows amount of film remaining. Use 50-ft. roll films, ASA 10 to 40.

LONG 10-FT. FILM RUN

Fast crank wind. 3-way starting button for continuous-run and single-frame shots

BIG PICTURE WINDOW VIEWFINDER

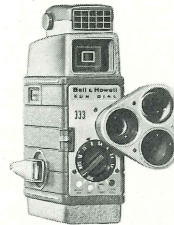

See subjects big and clear. Shows views for all three lenses, too.

...NO GUESSWORK...SURE SHOTS INDOORS AND OUT!

TOP CAMERA VALUE IN THE LOWER-PRICE RANGE

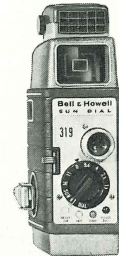

Glance at the Sunometer for a precise exposure reading, set the Sun Dial, and you're set to shoot. Movies are never too dark, never too light—always just right.

The popular Sunometer is top-quality throughout: All die-cast aluminum construction, precise film movement, Super Comat lens, versatile controls, plus built-in picture-taking ease enabling the beginner to get good results his first try.

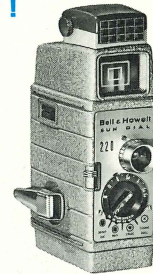

SUNOMETER 333

3-lens model. Fast f/1.9 Super Comat lens; 2½X telephoto and 6.5mm wide-angle auxiliary lenses on Safeguard rotating turret.

SUNOMETER 319

Single-lens camera: with extremely fast f/1.9 Super Comat lens.

SUNOMETER 220mm

Same, with 10mm f/2.5 Comat lens. Finest budget-priced camera.
